

CHRISTENSEN'S PLANT CENTER

Wholesale Supplier To Landscape Professionals

Hi, my name is Mark Quinn. I am the new yard manager at Christensen's Hardscape Center. I have been in the industry for about fifteen years. I have installed many pavers and built a few walls in my time. I am also a ICPI certified installer. So if you have any questions or concerns feel free to give me call and I will get you an answer. I am looking forward to assisting all of our valued customers.

I would like to bring you up to date on some of the new products that we have in stock at the Hardscape Center. We now have 2NS sand which is recommended by all major manufacturers of brick pavers. We also carry SEK wide joint sand for joints up to 4 inches wide. And we carry the new Boar Hog premium Diamond saw blade in four sizes for all your cutting needs - 4.5, 7, 12 and 14 inch.

We are stocking several new pavers from Unilock, the Town Hall and Copthorne in three colors, plus the Series 3000 4x8 in Black Granite.

Rosetta has come out with a new square dimensional fire pit that looks really good.

Indiana Limestone has made us some pillar caps in

two sizes, 24 x 24 x 3" and 28 x 28 x 3", rock face on all four sides. We also have wall coping, rock faced on the two long sides in 3 x 12 x 48". Bullnosed on one long side coping is available in 2.25 x 12 x 48". Custom sizes and other items can be made for you, with a lead time of about one month.

I would like to invite any of our customers that have not seen our new showroom to stop in and take a look around.

Thank you, Mark

Mark Quinn
