

CHRISTENSEN'S PLANT CENTER

Wholesale Supplier To Landscape Professionals

Arpillera

Arpillera es una tejido economico y de alta calidad para todo uso biodegradable. No solo es una eleccion respetuosa con la tierra, ya que esta hecho de fibra natural organica de la planta de yute, pero no contiene ningun aditivo quimico o tratamientos por lo que es completamente seguro para los animales y el medio ambiente.

La arpillera se puede utilizar para una gran variedad de tareas, incluyendo: control de la erosion, la barrera biodegradable malezas, manta heladas, envoltura vegetal, el trasplante de cepellones, malla protectora, contra el viento, y mucho más.

Nosotros tenemos todos los tamanos de arpillera que nuestros clientes quieren para proteger sus jardines: residenciales, comerciales, y mas.

Burlap

Burlap is a high quality affordable all-purpose biodegradeable fabric. Not only is it an earth friendly choice because it is made from naturally organic fiber from the jute plant, but it contains no chemical additive or treatments so it is completely safe for animals and the environment.

The burlap can be used for a huge range of tasks including erosion control, biodegradeable weed barrier, frost blanket, plant wrap, transplanting root balls, silt fence, wind break, and more.

We have all sizes of burlap that our customers want to protect their gardens: residential, commercial and more.
