

CHRISTENSEN'S PLANT CENTER

Wholesale Supplier To Landscape Professionals

Visiting the nursery

During this time of booming business that we are experiencing, we ask you for the following in order to assist you better. Please be sure to send your driver with a complete list of all of the materials that are needed to be picked up. We have seen many customers have to make several trips to our nursery because items were not loaded on the truck due to incomplete material lists.

Please also send your driver in a vehicle appropriate for the material being picked up. We are very good at loading material, even into odd vehicles. But we have had to turn down a few customers who have made requests for loading that were simply unsafe.

And as always, when you bring your clients to Christensen's, please remind your clients that they are welcome at our nursery with you. However, they need to leave their children and pets at home. We want your experience at Christensen's to always be a positive one, and we are not designed to accommodate children at our facility.

Thank you for choosing Christensen's Plant Center to fulfill your plant and hardscape needs. I look forward to seeing all of you soon.

Gracias!

Antonio
