

CHRISTENSEN'S PLANT CENTER

Wholesale Supplier To Landscape Professionals

New Mulch Location!

"I am here to pick up a load of brown mulch, am I on the right side?"

"Don't you carry the shredded mulch, I don't see it here."

"Where is your red pine mulch?"

"Why don't you stock hardwood mulch?"

"The other side? You have another side? Where is that?"

If I had a penny for every time I've heard those questions, I believe I could have 3 yards of pennies! So, to make things more convenient and less confusing, we have moved the mulch. All of the mulch that we carry here at Christensen's has been relocated over to the Hardscape Center. For those who have never visited the Hardscape Center, we are located on the west side of Gotfredson Rd., just north of Karl's Restaurant.

As many of us know, the corner by the pond where the mulch used to be stored was often quite congested. The amount of traffic in this area raised concern for the safety of you, your employees & us. In addition, having separate storage locations created confusion about the bulk goods we offer. Our goal is to eliminate the congestion & confusion, and to streamline our service to you.

Now ALL of our bulk goods are in one location. We still have all the same varieties of mulch, and now, some of our bins are even larger to stock more of our most preferred colors and types. By consolidating our bulk goods, we can now accommodate more vehicles in a safer location. We have up to three loaders to help multiple customers at the same time. Quicker load time, less wait in line time. While you are getting loaded up, stop in for a cup of coffee and ask us about our delivery services. Our dump truck can deliver up to 20 yards of mulch to your location. We can also deliver 21aa, 2ns, slag and top soil.
