

CHRISTENSEN'S PLANT CENTER

Wholesale Supplier To Landscape Professionals

1989 to 2015 - 26 years!

In 1989, Christensen's Plant Center moved from Livonia to the farm fields of Salem Township. When we moved, we closed our retail garden center (after 58 years) and chose to service the Green Industry exclusively.

It was a time of choices and decisions for Christensens. We took 11 acres of farm field and, after 30+ design concepts, built the distribution center that we operate today. We wanted a nursery design that served contractors well. We poured 4 acres of concrete to keep our customers out of the mud. We tailored the nursery to be contractor friendly and have been rewarded by the embrace of our clients.

Now, years later, we find that it is time to reinvest in our 'new' nursery (well, new 26 years ago). Concrete needs to be repaired and replaced. The septic needed an upgrade. We invested in pH control in our irrigation system. We moved all of our bulk materials to the Hardscape Center.

Use some time and look at the tools and systems that make you successful. Do they actually reflect your success? Is your truck a beater? Your trailer abused and near death? Are your office systems functioning well?

Use some time and choose to reinvest in your success!
