PLANT & HARDSCAPE CENTERS

Summertime blues

Happy mid-summer! Does anyone ever really say that? Springtime is great for new products, new customers and finally being able to enjoy some fresh, not frozen air. Fall has hunting, holidays and for some, the prospect of finally relaxing and recouping from a long season. Mid-summer however, all you seem to get

are long, hot humid days that drag on forever. The excitement of spring has worn off, and fall is still so far away. Sounds like a mid-season crisis. Would something new bring a bit of excitement back? How about two new things? Why stop there, lets add a bunch!

The first new and shiny would be clay pavers by Whitacre Greer. We are stocking the 4" x 8" size in a smooth beveled top in #32 antique, #33 dark antique and #34 mulberry colors. These pavers can be purchased by the pallet, section or the piece.

The second gem would be the addition of 6A limestone. This product is 3/4" in diameter and has been washed, so there are no fines in it. It is ideal for permeable paver applications, backfill behind retaining walls and many other applications where you would like to have better drainage. We now stock Surebond cleaners and sealers, all water based, joint stabilizing and available in a gloss or matte finish in 1 or 5 gallon sizes. And the last fun "new toy", as our resident Captain Obvious calls them, is the Sollos ledge light. These light are perfect for under steps or pillars. The fixture comes WITH an led module, so there is no need to upgrade! They are available in textured black and textured bronze.

With all the hustle and bustle of spring, I'm sure I've missed a few of our other new products. So come visit us at the Plant or Hardscape Centers, get yourself a cup of refreshing lemonade (weather permitting) and we'll show you all of our new goodies. Let's make it like springtime again, just in July!
