TREE FRUITS

Some fruit trees require a pollinator, some do not. Please note that some pollinators do not work in both directions, i.e. "A" pollinates "B", but "B" may not pollinate "A".

Apple:

'Golden Delicious' 'Empire', 'Honeycrisp',
 'Jonathon', 'Red Delicious'

These apples can all pollinate each other:

'Empire', 'Fuji', 'Gala', 'Granny Smith', 'Honeycrisp',
'Jonathan', 'Jonagold', McIntosh', 'Red Delicious'

Apricot, Peach, Nectarine: typically self-fertile

Cherry:

'Bing' (sweet) 'Montmorency' (sour)
'Black Tartarian' (sweet) . 'Bing' (sweet)
'Montmorency' (sour) self-fertile

Pear:

'Bartlett' 'Bosc', 'Comice', 'd'Anjou'
'Bosc' 'Bartlett', 'Comice', 'd'Anjou', 'Seckel'
'Comice' 'Bartlett', 'Bosc', 'd'Anjou', 'Seckel'
'D'Anjou' 'Bartlett', 'Bosc', 'Comice', 'Seckel'
'Seckel' 'd'Anjou', 'Bosc', 'Comice'

Plum:

'Burbank' 'Santa Rosa', 'Satsuma'
'Santa Rosa' self-fertile
'Satsuma' 'Burbank', 'Santa Rosa'
'Stanley' self-fertile

VINES

Woody vines, twining or clinging - all are winter hardy and prefer a support to ramble on. Grow vines on trellises, fences, trees, or arbors. Plan ahead, some have very vigorous growth habits!

Actinidia - Hardy Kiwi ○●

Twining vine. Sexes are separate, needing both male and female plants for pollination, except 'Issai'. Edible fruit.

arguta 'Issai': Self pollinator 20'

kolomikta 'Artic Beauty': White, pink, green leaves. 15'

Akebia - Fiveleaf Akebia ○●

Fast to establish tough vine with unusual leaf texture. White flowers late March. No fall color.

quinata 'Variegata': Pink flws, lvs splashed white. 20-40'

Ampelopsis - Porcelainberry ○●

Unusual fruit color, berries change from green to lilac to amethyst purple, effective Sept-Oct. Twining vine with lots of tendrils. Prune late winter-early spring.

brevipenduncula: 'Elegans': lvs splashed white. 10-15'

Aristolochia - Dutchman's Pipe ○●

Vigorous twining habit, large leaves form a solid screen. Unusual yellow-green flowers in May or June.

macrophylla (durior) 20-30'

Campsis - Trumpet Vine ○●

Large, tubular flowers a favorite of hummingbirds. Fast growing vine clings by root-like holdfasts. Grows anywhere.

radicans: Orange, lighter interior. 30'

r. 'Flava': Yellow, stunning! 30'

r. 'Madame Rosy' ('HOMR'): Red, seedless. 10-15'

r. 'Minnesota Red': Red. 30'

x tagliabuana: Orange, red interior. 30'

x t. 'Mme. Galen': Apricot, veined darker. 30'

Campsis radicans

Celastrus - Bittersweet ○●●

Vining, scrambling habit. Need male and female plants to pollinate. Showy orange fruit ripens in October. Full sun for best fruiting.

- orbiculatus - Oriental: Invasive. Not for sale! 20-30'
- scandens - American: Native to Michigan. 20-25'
- s. 'Indian Brave': male cultivar. 20-25'
- s. 'Indian Maiden': female cultivar. 20-25'

Hydrangea - Climbing Hydrangea ○●●

Stunning white flowers late June-July. Very tolerant of pollution, urban conditions, cold, and shade. Clings by holdfasts.

- anomala subsp. petiolaris: Exfoliating bark. 30'

Lonicera - Climbing Honeysuckle ○●

Twining, clambering vine - vigorous to invasive. Blooms May-June, or longer. Flowers quite fragrant.

- x brownii 'Dropmore': Orange-red. 10-20'
- x heckrottii - "Goldflame": Dark pink, yellow. 10-20'
- japonica 'Halliana': White, turning yellow. 15-30'
- periclymenum 'Peaches and Cream': Pink/white. 15'

Parthenocissus - Boston Ivy ○●●

Climbing vine, flowers inconspicuous. Orange, purple or red fall color.
